

This pamphlet is a crime against the Military Selective Service Act. It advocates. We are specifically encouraging resistance to the registration laws of the United States, seeing registration as the necessary step toward conscription (the draft). We are what the Selective Service calls 'anti-war intellectuals.' We see the direct link between registration, the draft, and aggressive war. Remember, non-registration is the strategy to beat the draft. If enough of us refuse, there is nothing they can do!
